

KRIPA KADODWALA

BCA Student | Software Development | UI/UX Design

kripak1908@gmail.com | +91 9016902526 | Athwalines, Surat | [linkedin.com/in/kripakadodwala](https://www.linkedin.com/in/kripakadodwala) | github.com/Kripa19-08 | Portfolio : kripa19-08.github.io/kripa-portfolio/

PROFILE

BCA student with a foundation in programming and software development, along with experience in UI/UX design. Familiar with Java, C, C++, Python, PHP, Android, ASP.Net, Web Development, and database technologies through academic learning and practical projects. Seeking an opportunity to apply technical skills in a practical development environment and continue building software development expertise.

EDUCATION

Bachelor of Computer Applications 2024-2027
Vanita Vishram Women's University
CGPA: 8.68 | Semester : 4

12th HSC – Commerce | ISC 2024
METAS Adventist School
Percentage : 86.6%

10th SSC | ICSE 2022
METAS Adventist School
Percentage : 91.8%

PROJECTS

Smart Accident and Disaster Alert System 2026
IoT | Arduino UNO | Arduino IDE | github.com/Kripa19-08/smart-accident-disaster-alert-system

- Designed and implemented a sensor based accident and disaster alert system using Arduino UNO.
- The system uses sensors to detect vehicles approaching a road and activates warning lights on the opposite sides of the road to alert approaching vehicles.
- It also includes a water-level detection mechanism that triggers a buzzer when water reaches the sensor, providing an early warning for flood conditions.

SpeedToll – Fast & Seamless Toll payments 2025
UI/UX Design | Figma | Prototyping

- Designed and prototyped a mobile application UI for SpeedToll, a digital toll management system focused on fast, seamless travel experiences.
- The app enables users to get toll tickets and passes in one place, renew passes, and navigate routes efficiently without delays at toll gates and also search for nearby restaurants and petrol pumps.

MindUnwind – Mental Wellness App 2025
UI/UX Design | Figma | Prototyping | Hackathon project

- A mental wellness and self-care mobile application designed to help users manage stress, reflect on their emotions, and build healthier habits.
- Key features include: Daily mood check-ins, Personal journaling, Community support, Stress management resources, Progress tracking, Personalized profile management.

KEY SKILLS

- **Programming Languages** : C, C++, Java, Python, JavaScript, PHP.
- **Database** : DBMS, RDBMS, PL/SQL.
- **Web Development** : HTML, CSS, JavaScript, Bootstrap.
- **Frameworks** : ASP.Net
- **Tools & Platforms** : Android Studio, Arduino IDE, Figma, Canva, Android, Notepad++, Microsoft Office Suite, Red Hat Linux.
- **AI Tools** : ChatGPT, Gemini, Claude, Google Pomelli, Replit, Lovable, Google Flow, Gamma ai, Canva ai.
- **Digital Marketing** : SEO, Google Ads, Meta Ads.
- **Soft Skills** : Creativity, Critical Thinking, Communication, Leadership, Problem-Solving.

ACHIEVEMENTS

- | | |
|--|-------------|
| 1st Place – QUIZZARD
<i>IT based Quiz Competition</i>
V – Bytes Tech Fest | 2026 |
| 2nd Place – QUERYING DB
<i>PL/SQL & Oracle Database Challenge</i>
V – Bytes Tech Fest | 2026 |

CERTIFICATIONS

- **Employability Skill Training Programme** – Mahindra Pride Classroom, Naandi Foundation (2026)
- **Problem Solving through programming in C** – Swayam Nptel (2025)
- **Programming in modern C++** – Swayam Nptel (2025)
- **Introduction to Android Studio Course** – Simplilearn (2026)
- **Introduction to PHP** – Simplilearn (2026)
- **Introduction to ASP.Net** – Simplilearn (2026)
- **Fundamentals of Cybersecurity** – Zscaler (2026)
- **UX Design Introduction Job Simulation** – LLOYDS Banking Group via Forage (2025)
- **UI/UX Design Specialization Certification** – Vanita Vishram Women's University (2025)
- **Ai in Digital Marketing Certification** – Vanita Vishram Women's University (2026)
- **InnoviShe Hackathon** – Participation (2025)
